FLANNAGAN ADVISES **BOILING DRINKING WATER**

City Health Officer Sounds Warning Against Danger of Typhoid

ONLY ELEVEN CASES IN CITY

No Epidemic, but, Because of Conditions of Water Supply, Officials Advocate Precaution of General Antityphoid Vaccination.

in Richmond. The vaccine will be administered without any cost whatsoever room. The following compose the at the Health Department between the hours of 8:30 and 9:30 A. M. and 12 Mrs. W. B. Newell, chairman; Mrs. Mrs. W. B. Newell, chairman; Mrs. James Eichardson, secretary.

Dr. K. D. Graves, of the Health Department's staff.

RIVER MUDDIED BY

CONTINUOUS RAINS In discussing the situation last night, Dr. Flannagan said that the almost continuous rainfall during the past six weeks has made the James River muddler than it has been for many years. The James furnishes Richmond with its water supply.

"It is necessary to use the maximum "It is necessary to use the maximum amount of chemicals in the water in order to clarify and purify it before it is delivered to the people," said Dr. K. Flannagan. "Notwithstanding this, there have been many days recently that certain sections of the city have had to use turbid water. At times had to use turbid water. At times, too, there has been a decided chemical taste to the water. This taste is to be expected. It is harmless and furnishes to the Richmond people the best insur-ance for the sanitary quality of the water the city can give at this time. It is better to overdose a little with chlorine than to fail to purify. Even at this, it would be well for the citizens to realize that Richmond water is not filtered, and that when it is not clear it may become dangerous.

pected that many will take advantage of the free vaccination, and, therefore, in order to avoid any interruption to the department's routine work, Dr. Flannagan thought it best to specify hours when people may be vaccinated.

There are new collections the minimum weight 12- points.

Numerous applicants for enlistment have been rejected for failing to come up to the height and weight standards, and, with these lowered, it is believed that recruiting will be materially aided. The army recruiting station was yesterial or recruiting former to the property of the property

INFANTILE PARALYSIS CASE ON SOUTH SIDE

First Instance of Disease in Richmond This Year Is Reported.

PROMPT PRECAUTIONS TAKEN

Child of William A. Hawkes, of 600 West Twenty - Fourth Street, Is Isolated Under Direction of Health Officials.

Antityphoid Vaccination.

While no epidemic condition exists, Dr. Roy K. Flannagan, Chief Health Officer, resterday sounded a warning to Richmond against typhoid fever, and urged that all persons who nave not done so be vaccinated against this dread summertime disease. In addition, he recommended that city water used for drinking purposes be boiled. Under an agreement with the United States Public Health Service all persons who wish to be vaccinated may have it done without cost. The Richmond Health Department has received an unlimited quantity of antityphoid vaccine for free distribution, and all persons who call at the offices of the department, third floor, City Hall, will be vaccinated without cost.

The vaccine has been placed at the department, third floor, City Hall, will be vaccinated without cost.

ands of little lives were snuffed out by the ravages of the plague. Sev-eral cases appeared in Richmond, but it no time did the trouble here reach the proportions of an epidemic. While this is the first case to be reported in the city this summer, the authorities have been on the alert for the appearance of the disease and were prepared to hendle it as soon as it developed. SOURCE OF INFECTION

NOT YET DISCOVERED Dr. Flannagan last night said that so far it had been impossible to trace the source of infection in the case in hand, but that every clue will be followed to find, if possible, where the disease was contracted. It was learned, however, that recently the infant was taken on a same point of the country and an automobile trip in the country, and efforts will be made to find out whether the disease has been in evidence in the

community visited.

The condition of the child was not regarded by the physicians as alarming. The left leg appears to be the ing. The left leg appears to be the only limb affected.

The case had been under treatment by Dr. Shelton for several days, but not until yesterday did ac have reason to believe that the trouble was infantile paralysis. Physicians are required by

paralysis. Physicians are required by law to report immediately all such cases to the Health Department. Not only have the patient and members of the family where the disease developed been quarantined, but pre-cautions have been taken throughout the neighborhood to prevent a spread

Ride Around City Costs Groves \$300

Buys Automobile Which Turns Out to Have Been Stolen From R. S. Hudgins.

For a ride over the city and further trip from Richmond to Petersburg, Bobert N. Groves, claiming the latter city as a place of residence, is out \$300. Incidentally, as he stated to Captain of Detectives McMahon, Barnum's estimate of the number born every minute is far too small. Also, Groves will buy no more bargains, that is, of automobiles, unless minute investigation shows that all's well.

Groves arrived in Richmond Thurs-

day night from Petersburg about the time R. S. Hudgins was reporting to the police that for the fifth time, some one had stolen his automobile from Ninth and Broad Streets. Groves was in Richmond to buy a car, and he naturally drifted up along

"Motor Row," on Broad Street.
Stopping to converse with a man
who had a 1917 model of a popular
price car in tow, Groves dropped a question as to where a fellow might pick up a bargain in a car. By an odd coincidence, the party to

whom he spoke had an idea that the very car in which he was seated might be for sale, but the owner would have to be consulted. He had a good idea, however, that the owner would be willing to part with the machine for about \$300. In order that Groves might see just

what a regular car was being offered, he was invited to take a ride over the city. Comes the end of the trip, and the driver suggests that Groves alight and wait for him to return.

Well and good. Shortly afterwards the driver and the company the city of the Well and good. Shortly afterwards the driver and the car returned, and as the driver had expected, the owner was entirely willing to sell. Groves had the \$300 handy, and the car and money changed hands. The purchaser started on his return trip to Petersburg, and the selling agent decided that he would accompany Groves.

At Petersburg the agent disappeared, and Groves placed his car in a garage. The next day, when Captain McMahon wired Petersburg that a car belonging to R. S. Hudgins had been stolen, and asking that a watch be kept for it, Petersburg officers got busy and made a round of the garages.

Then Groves discovered that he had benefit the selling to grove the decident of the garages.

and made a round of the garages.

Then Groves discovered that he had bought the Hudgins car, and there was only one thing he could do.

Mr. Hudgins has his car, and Groves—unpleasant memories.

II ALDERMEN WRANGLE OVER PLAYGROUNDS

Finally Concur in Appropriation for Improvements at Chimborazo Park.

CLOSE STREETS IN BOTTOM

Ordinance Opens Way for American Locomotive Company to Enlarge Its Plant - State Fair Board Is Voted Refund.

After first declining to concur with the Common Council in the adoption of a resolution to appropriate \$99 for equipment at the Chimborazo Playground, the Board of Aldermen last night reconsidered its action, and passed the measure by a vote of \$ to 1.
Alderman L. T. Christian, of Madison
Ward, voting in the negative.
The matter consumed nearly thirty

minutes of the Board's time while the question was debated by Alderman Christian, who was unequivocally opposed to the appropriation, and by Al derman Powers, of Madison Ward, and Ald men Puller and Mitchell, of Clay Ward, who thought it was incumbent upon the Council to supply funds for the playgrounds. The measure originated in the Ad-

The measure originated in the Administrative Board when it was learned that \$99 was necessary for the completion of a tennis court and for the installation of a sliding-board at Chimborazo Park. It was approved by the Common Council under a suspension of the rules. In reality it is a transfer of funds from the city's contingent fund to the playgrounds account.

OTHER MEASURES
GIVEN APPROVAL Other measures concurred in by the

Board were as follows: Ordinance amending an ordinance allowing the American Locomotive Com-pany to close certain streets about its local plant by changing the location of an easement through which the city proposes, eventually, to run a sewer. Ordinance authorizing the Southern Railway Company to construct a spur track across Water Street into the property of S. H. Hawes & Co.

Resolution appropriating funds to pay the premiums on bonds furnished by city employees earning less than

\$2,000 a year.
Ordinance requiring the Police Department to post traffic signs on Ninth Street, between Broad and Cary Streets, indicating that vehicles cannot be parked on the west side of that thoroughfare.

Resolution authorizing the refund of \$6,510.28 to the Virginia State Fair Association for rental of the State Fair Ordinance changing the location of

the Seventh Precinct, Madison Ward, from 1519 Hull Street to 1502 Hull CONTRACT FOR RIGHT OF WAY OVER BACONS QUARTER BRANCH

Resolution authorizing the Mayor to enter into a contract with the Sea-board Air Line Railway Company for the dedication to the city of a right of way across Bacons Quarter Branch at the point where the Chamberlayne Avenue Boulevard will be linked with the city proper by a viaduct.
Ordinance allowing Police Justice
John J. Crutchfield leave of absence

for sixty days with full pay.

Because there was not a threefourths vote present, the Board tabled resolutions to appropriate funds for repairing the Soldiers' and Sailors' Monument, and to refund excess taxes

paid by P. Lorillard & Co.

The Board received a communication from the Board of Fire Commissioners asking to be exempted from that clause in the new budget which prohibits the use of funds from an expense account for pay roll purposes. The matter was referred to the Finance Committee.

A request from the Committee on Charter Changes for an appropriation r pay to H. H. Chalkley for stenographic services rendered the committee, was also referred to the Fi-nance Committee.

Charged With Stealing Bicycles.
Charged with the theft of two bicycles, Andrew Martin, age twelve years, of 807 West Cary Street; Joseph Locke, age ten years, of 109 South First Street, and Gordon Bent, age thirteen years, of 3 West Cary Street, were arrested yesterday and confined at Detention Home, pending their hearing in Juvenile Court. Three wheels found in possession of the boys were seized.
